CANNABIS EDUCATION PHYSICIAN/PROVIDER MMJ CME COURSE

Doctors, nurses, pharmacists and all those interested in the science of medical marijuana should attend this course. Come listen to two lectures given by medical marijuana experts, and leave with a 12-month subscription to TheAnswerPage's comprehensive medical marijuana library. You can earn up to 22.5 AMA PRA Category 1 CME Credits™ by studying just 15 of the many medical marijuana syllabus topics from TheAnswerPage's extensive library. Also, you will receive content updates and new material during the 12-month period. You get all of this just by purchasing a conference ticket!

TheAnswerPage

TheAnswerPage.com, founded by Stephen B. Corn, MD, is a continuing medical education (CME) website that has been providing AMA PRA Category 1 CME™ accredited content worldwide since 1998 and has become a recognized leader in providing unbiased peer-reviewed medical content focused on medical marijuana, pain and the opioid epidemic. Dr. Stephen B. Corn will be onsite, attending and hosting the educational program at this seminar. Please see our [speaker page](#) for Dr. Corn's biography.

TheAnswerPage's Innovative CME

The medical marijuana CME course offered at the 2017 World Medical Marijuana Business Conference and Expo is perfect for all types of healthcare providers. Attendees of the CME course will hear

about the latest medical marijuana information from TheAnswerPage's team of experts. Following the lecture portion, attendees will have access to TheAnswerPage.com's medical marijuana CME library for an entire year and can earn up to 22.5 AMA PRA Category 1 CME credits™, including risk management hours, at no additional charge. TheAnswerPage database stores and organizes each user's CME information and allows users to easily download, email, or print CME certificates at any time.

The online MMJ CME education that I received through TheAnswerPage was absolutely fantastic. From a clinician standpoint, TheAnswerPage's CME offerings provide a tremendous clinical background and current state of affairs with regard to MMJ, and provide clinicians with the baseline education that is required in this new and expanding area of medicine. The online program is easy to use, interesting, efficient and comprehensive. The fact that their programs are used by state governments to educate physicians on MMJ shows their commitment to provider education. I would highly recommend their online programs to any of my colleagues and in fact will likely use The Answer Page for the duration of my career."
