

# Medical Marijuana is legal in your state.

The time is now to become a member of Compassionate Certification Centers!

For \$6 a month see what your doctor will see and be part of an exclusive membership as there are strength in numbers

## PATIENT MEMBERSHIP

Finding a doctor in our directory means they have compassion and know how to help. For you, how to discuss your condition the Supreme Court ruled that doctors may legally recommend cannabis to their patients.

Doctors do not need to be in a state with medical cannabis laws to do so. However, each state with medical cannabis laws requires different mechanisms to put recommendations in writing so that the patient may legally access cannabis. Doctors cannot prescribe cannabis or help patients obtain the cannabis itself. We will help you understand the laws and go three steps further with your membership.

Join today for all access to our physician portal for state specific documents and education materials. A help line, and newsletters that have specific content. Being part of Compassionate Certification Centers provides knowledge and protection you won't find on your own. There are strength in numbers.
